

Amarinth delivers world-leading expertise in the design, application and manufacture of end suction centrifugal pumps in a variety of standard and exotic alloys to API, ISO & ANSI standards for use primarily in the Petrochemical, Oil & Gas, Chemical, Pharmaceutical and General Industrial markets. In addition, Amarith designs and manufactures the “Protect System” range of seal support systems for use with both Amarith and other manufacturers’ pumps. Many of its products interchange with the Girdlestone pump ranges providing re-engineered spares or an effective pump upgrade without the need to modify any pipe work or mountings.

The Amarith range includes:

- API 610 (OHI & 2) centrifugal process pumps (A & B Series)
- API 610 (VS4) vertical sump pumps (V Series)
- Chemical process pumps – (C & N Series)
- Vertical sump pumps – (T Series)
- Industrial pumps – (U & S Series)
- API 682 Plan 52, 53A, 53B seal support systems
