

## About Amarinth

Founded in 2002, Amarinth has harnessed the skills, creativity and passion of people who have worked in the pump industry for many years. Amarinth delivers world-leading expertise in the design, application and manufacture of pumps and associated equipment and services to create innovative solutions that help organisations operate more efficiently and effectively. These include:

- Ci-Nergy - the industry-leading intelligent variable speed control system
- Protect System - an Amarinth division that produces high quality sealant systems that incorporate fully compliant Zone I vessels with inbuilt condition monitoring
- E-commerce technologies - delivering 24/7 support allowing customers to place orders on-line through the internet and then track every stage of manufacture through to delivery, any time, anywhere in the world

Amarinth designs and manufactures a broad range of industrial centrifugal pumps and ancillary equipment to API, ISO & ANSI standards, primarily for the industrial, chemical, petrochemical and oil and gas markets. Working with its customers and specialist partners, the company also designs total pumping solutions and packaged systems that can include receivers and interceptor vessels, condensate recovery units, filtration modules, instrumentation and control, valves and pipe work. Many Amarinth pumps are directly interchangeable with those from the Girdlestone pump range, eliminating the need for expensive modifications when replacements are required.

The company operates globally from its base in Rendlesham Suffolk, United Kingdom and has a customer base of world-leading companies, including BP, Shell, ExxonMobil, GlaxoSmithKline, Pfizer, Spirax Sarco, Diageo, AMEC, Halliburton, ConocoPhillips, Amerada Hess, TengizChevrOil and Chevron Corporation.
